CLUTTER IMAGE RATING SCALE

Using the 3 series of pictures (Living Room, Bedroom and Kitchen), please select the picture that best represents the amount of clutter for each of the rooms of your home. Put the number on the line below.

Select the picture that is closest to being accurate, even if it is not exactly right. If your home does not have one of the rooms listed, just put NA for “not applicable” on that line.

Room number of closest corresponding picture (1-9):

Living Room _____ | Bedroom #1 _____ | Bedroom #2 _____ | Kitchen _____

Use the Living Room picture to rate the other rooms in your house:

Bathroom _____ | Dining room _____ | Hallway _____ | Garage _____ | Other: _____

ICD Assessment Tool

Structure and zoning

Assessment of access to entrances and exits; function of plumbing, heating and electrical systems and appliances, and structural integrity

Animals and pests

Assessment of animal care and control; compliance with local animal regulations; assessment for evidence of infestations of pests (rodents, insects or other vermin)

Household functions

Assessment of safety, functionality and accessibility of rooms for intended purposes

Health and safety

Assessment of sanitation levels in household; household management of medications for prescribed and/or over-the-counter drugs

Personal protective equipment (PPE)

Recommendations for PPE (face masks, gloves, eye shields or clothing that protect wearer from environmental health and safety hazards)
